Factory Acceptance Test (FAT) Report
Semi-Automatic Capsule Filling Machine

1. General Information

Machine Name: Semi-Automatic Capsule Filling Machine
Vendor: Excellence Engineering
FAT Location: Vendor Premises
FAT Date: 05-Jan 2026
Customer / Company: Medics Laboratories Pvt. Ltd.

2. Purpose of FAT

The purpose of this Factory Acceptance Test (FAT) is to verify that the semi-automatic capsule filling machine meets production requirements and technical specifications:

- Capacity
- Time
- Performance
- Cleaning
- Operation Easiness

3. GMP Compliance Overview

- Machine design suitable for pharmaceutical use
- Product contact parts made of SS 316L
- Smooth, cleanable, and corrosion-resistant surfaces
- No risk of cross-contamination
- Compliance with cGMP guidelines

4. Machine Specification Verification

Capsule Sizes Supported: 0 sized capsules
Rated Output Capacity: 10,000 capsules/hour
Material of Construction: SS 304

5. Performance & Trial Run

Trial Quantity: (3,000 capsules)

i. The vendor has improved powder loss; however, a minimal amount of loss still occurs during the trial, which may impact product yield.
ii. No damaged or improperly locked capsules observed.
iii. Machine Cleaning SOP .to be developed by Medics specially for Joint Wella
iv. Medics will conduct the validation process to achieve the required weight.
v. The vendor will ensure proper covering of the filling button on the control panel.
vi. Vendor will handover machine after calibration of all gauges.
